

Report by Cllr Sam Cross NYC

Firstly, may I comment on how well the Platinum Jubilee celebrations went done well to locals and visitors made good comments about the town.

1. Roads I did have Karl Battersby and Richard Maw visit the Town and look at the roads but due to a "fall and a hospital stay I could not meet them in person, but they will be returning.

As you are all aware I'm very keen to improve the roads in the town and I'm working with local officers and having meetings and once fully recovered.

My first walk around will be with Andrew Santon will be on Tuesday 14/5 at 815am from the Town council offices.

I am also talking to the portfolio Cllr Keane Duncan to arrange a visit to Filey.

One of the roads in Filey was Grange Avenue and NYCC have been patching up there and its much improved.

2. One of my concerns over LGR is that we have always been Scarborough based and in the future the Council will be divided up based on MP constituency areas so we and Hunmanby are connected to Thirsk and Malton based in line with our MP.

3. I have spoken to various people re. internet and Filey being missed out and am arranging a meeting with the portfolio holder as to what can be done to improve it in Filey. On a separate note, SBC with the masterplan are looking at the costs to roll it out.

4. NYCC are looking at waste sites to recycle small electrical items.

Kind regards

Sam Cross 07774675194
